

For God's provision for more water hand pumps in Sindh for the villages that are without water. Taking the water to a village helps to give us an opportunity to share the gospel with people that have never heard the gospel.

For God's provision for people that have lost everything during the flooding in Bangladesh. Our team has been able to provide food for a couple of weeks for the families that need help the most. Please pray for God's provision for the repair and furnishing of the homes that were damaged because of the heavy rains.

We are thankful to our Heavenly Father for using us as to share the gospel with the people that have never heard the gospel before. Many of these people have spent their entire life in the darkness of Islam. Our team is burdened to share the truth of the gospel with the unbelievers. Even in dangerous environments, God is using our team to change many hearts and lives through the power of His Word. Thank you for valuable partnership of prayers and support for making this ministry possible. May God bless you.

In Christ,
